# Nationwide®'s ENLG Advantage Program

Nationwide is committed to providing low-cost solutions with guaranteed features that meet your clients' financial needs now and in the future. That's why we're proud to introduce the Extended No-Lapse Guarantee (ENLG) Advantage Program.

This is an optional program for large, first-year premium case designs with the ENLG rider. If this program is elected, all first-year premiums will be placed in a money market account and transferred into the subaccounts, monthly over 5 years.

When eligibility is met, clients will receive a

**discounted**

premium in exchange for participating in the Advantage Program.

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

Be sure to choose a product that meets long-term life insurance needs, especially if personal situations change — for example, marriage, birth of a child or job promotion. Weigh objectives, time horizon and risk tolerance, as well as any associated costs, before investing. Market volatility can lead to the need for additional premium in the policy. Variable life insurance has fees and charges that include underlying fund expenses and costs that vary with sex, health, age and tobacco use. Riders that customize a policy to fit individual needs usually carry an additional charge.
