What is the need for guaranteed issue disability insurance

Sound financial planning begins and ends with income planning. Proper income planning is impossible without adequate amounts of disability insurance.

Because there are a great deal of highly compensated employees who have been denied the ability to secure adequate and reasonable amounts of income replacement in the event they become disabled, we have designed the Guaranteed Issue Excess Disability Plan. This plan is designed to supplement and provide additional benefits where traditional markets have fallen short.

A business firm may indeed have a Group LTD plan in place for the employees of an entire firm. However, a typical LTD plan has limitations as to the maximum monthly benefit it will pay out. This cap on the monthly benefit is often too low to replace the proper amount of income for the well-compensated employees of the firm. Additional pitfalls of LTD plans are that they do not always cover compensation other than W-2 income. Bonus income, commission income and K-1 income are at times left uninsured via a group LTD plan.

A tiered approach to adequate income protection

Proper income protection often requires the use of more than a single disability insurance policy. This supplemental disability insurance plan fills in the deficiencies of not only group LTD coverage, but individual, standalone policies as well. Coverage will often take the following format:

- 1. Tier One** - Group LTD Coverage (60% to a maximum of \$10,000-\$20,000 per month)
- 2. Tier Two** - Individual Non-Cancelable, guaranteed to age 65
- 3. Tier Three** - Multi-Life Guaranteed Issue to provide the insured up to 65%-75% of total income

Style of plans

Mandatory: Coverage is offered to a select group of individuals such as the board of directors, a specific department or anyone who makes over a certain income.

Voluntary: Benefits are offered to a specific eligible group and requires minimum participation based on the size of the eligible group. Individual enrollment forms are one page and simply require a check-box and a signature to apply for coverage.

Hybrid: Mandatory Base plan with a Voluntary policy on top of it. The mandatory base plan provides a minimum amount of insurance and allows individuals to acquire additional coverage without worrying about the group meeting a certain minimum participation percentage.
