

United Healthcare®

Thank you for considering UnitedHealthcare for your employees' benefits. We strive to provide affordable products within our Fully Insured plans while ensuring the best medical outcomes, and we're excited to serve you as a customer. As you explore your options, we want to make sure you understand the value of services we include in our products at no additional cost. This saves money for your employees. By entering the number of employees in your group, this worksheet calculates the estimated potential average savings for each of these services per employee basis, and savings to your group.
